CORONAVIRUS: WHAT HAPPENS IN CASE OF A SUSPECTED INFECTION?
SOMEONE IN A PUBLIC SPACE MIGHT BE INFECTED?
HERE’S WHAT HAPPENS NEXT:

A PERSON DISPLAYS SYMPTOMS THAT COULD BE CAUSED BY THE VIRUS.

THE AFFECTED PERSON NEEDS TO BE PHYSICALLY SEPARATED FROM OTHERS.
NEXT: CALL HEALTH SERVICES UNDER 1450.

YOUR CALL WITH 1450: HEALTHCARE WORKERS GAUGE WHETHER THERE ARE GROUNDS FOR FURTHER INVESTIGATIONS.

A SWAB TEST IS CARRIED OUT.

WHILE THE SAMPLE IS BEING TESTED, FURTHER CONTACTS ARE ASSESSED: WITH WHOM DID THEY HAVE CONTACT?

IF INFECTION IS CONFIRMED:

CLOSE CONTACT:
IF THE TEST COMES BACK POSITIVE: CONTACTED BY HEALTH AUTHORITIES AND ORDERED TO SELF-ISOLATE FOR TWO WEEKS.

LOOSE CONTACT:
SELF-MONITORING RECOMMENDED, FURTHER MEASURES AS COMMUNICATED BY THE HEALTH AUTHORITIES.

BEFORE CALLING: PLEASE ORGANISE A GERMAN-SPEAKER TO TRANSLATE
