

# Annual Report 2025

## International Cooperation

### Emergency Relief

Our disaster relief focus in 2025 was on basic services for conflict-affected populations in the Middle East, in Afghanistan and Sudan. Additionally, we made further investments in preparedness, anticipatory and early action connected to climate-related disasters globally.

### Aid in Ukraine

Conflict-affected people received medical care through ambulance services and health units as well as winterisation packages and access to mobile water sanitation trucks, home based care, livelihood support and psycho-social assistance as needed.

### Water and Hygiene

Twelve African Red Cross Societies in the Nile Basin have been working across country borders since 2025 to establish regional disaster preparedness in water, sanitation and hygiene – which includes water treatment, borehole rehabilitation and temporary sanitation facilities in flood or conflict areas.

### Social Entrepreneurship

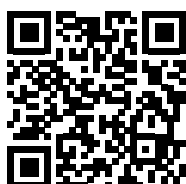

The global Redpreneur Academy for social entrepreneurship supports Lebanese Red Cross in building up a life-saving blood plasma production line and in strengthening its blood donation services in cooperation with a private company and Austrian Red Cross blood donation centre.

### Climate Change Adaptation in Rwanda

Women's cooperatives changed their vegetable farming methods and managed to double their yield while protecting the environment through efficient water use, soil care and organic fertilising. An additional reforestation and erosion control programme helped protect the communities from disaster risk.

*Annual Report online*

AUSTRIAN RED CROSS

**19** Humanitarian aid and development cooperation in **19 countries**.

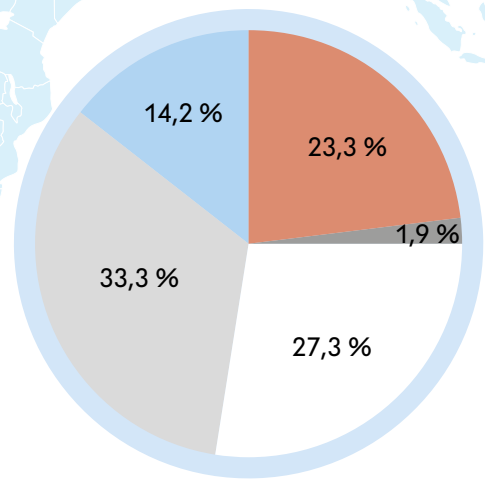

**10** Over **10 million euros** for support in Ukraine.
